About the Magazine

Arthshastra Indian Journal of Economics and Research, a twofold visually impaired friend checked on refereed journal focuses on the scattering and progression of research in every aspect of Economics. The point of the Journal is to give an educational stage to professionals, researchers, and academicians related with the field of Economics everywhere on over the world where research in elective standards for Economics could be introduced and discussed. It likewise means to advance interdisciplinary examinations over the issues of hypothetical, useful, and chronicled significance in managing issues in Economics, and scatter papers that have pragmatic ramifications for public strategy, business strategy, or individual dynamic.
