About the British Journal of Visual Impairment

The British journal of visual Impairment is for all specialists concerned with youngsters and adults who have a visual impairment and is a forum for all perspectives on related subjects. The editorial board welcomes articles of modern-day interest on research, schooling, health, welfare, employment and era.

"The British magazine of visual Impairment is a lively discussion board expressing contemporary viewpoints, in an on hand shape, on a variety of professional concerns. It's far brilliant in that it contains a huge range of problems and perspectives related to visual impairment - a number of these are unique, some widespread, but all are sizable." Linda Pring, Professor of Psychology, Goldsmiths university, university of London, united kingdom.

"The British magazine of visual Impairment combines a excessive trendy of educational excellence with clarity of presentation and sensible relevance. It is a maximum critical forum and source of new information for researchers, teachers, and for individuals who are interested by obtaining and maintaining literacy and spatial mobility." Dr. Susanna Millar, university of Oxford, uk

"The British journal of visual Impairment will provide a key platform for sharing expertise between practitioners and researchers working within the subject of visible impairment and blindness. It's far important that the effect of developments in diagnosis, evaluation, remedy, control and coverage is shared with and monitored through all operating on this crucial arena." G. Morbey, chief government, sense Scotland.
