About the Cartilage

CARTILAGE publishes articles related to the musculoskeletal system with unique interest to cartilage restore, development, characteristic, degeneration, transplantation, and rehabilitation. The magazine is a discussion board for the exchange of ideas for the many styles of researchers and clinicians involved in cartilage biology and repair. A number one goal of CARTILAGE is to foster the pass-fertilization of the findings between scientific and basic sciences during the numerous disciplines involved in cartilage repair.

The magazine publishes complete duration authentic manuscripts on all forms of cartilage such as articular, nasal, auricular, tracheal/bronchial, and intervertebral disc fibrocartilage. Manuscripts on clinical and laboratory studies are welcome. Assessment articles, editorials, and letters also are endorsed. The ICRS envisages CARTILAGE as a discussion board for the exchange of knowledge amongst clinicians, scientists, sufferers, and researchers.

The international Cartilage Regeneration & Joint renovation Society(ICRS) is dedicated to promotion, encouragement, and distribution of fundamental and carried out research of cartilage if you want to allow a higher knowledge of feature and dysfunction of articular cartilage and its repair.
