## **About the International Journal of Manufacturing and Materials Processing**

---

International Journal of Manufacturing and Materials Processing is a companion looked into journal that gives understudies, specialists and driving ventures with high caliber of logical information. Journal centers around conventional and non-customary manufacturing measures, just as new advances in planning technique, making the hypothetical part of the examination as significant as the common sense of the work done. The conspicuousness of the journal lies in the mechanical application and curiosity of the examination work.

All commitments to the journal are thoroughly refereed and are chosen based on quality and creativity of the work. The journal distributes the most huge new exploration papers or some other unique commitment as surveys and reports on new ideas in all territories relating to its degree and examination being done on the planet, hence guaranteeing its logical need and importance.
